Billet Grills

These beautiful newly designed Billet Grills mount in the existing grill locations and add an awesome look to your early model Mustang. Our grills are welded and utilize 30-40% more billet bars than the average billet grills on the market. This feature provides each grill with tight spacing, a near perfect fit, and a stronger and more durable product.

Please note: The lower grills may require very slight trimming due to fiberglass variations.

Fog Lamp Wiring

- 1964-65 Warning Light Cars**
 Originally on 1964 and 1965 cars with warning lights, fog lamps weren't available. Subsequently, these wiring harnesses are not set up for factory fog lamps. These cars require (C5ZZ-15223-FUD fog lamp wiring conversion kit and C6ZZ-15A214-A fog lamp switch)
- 1965 GT and Pony Interior Cars**
 Late 1965 cars equipped with GT or Pony interior options already have most fog lamp wiring built into the headlamp and under dash harnesses. These cars will only need (C5ZZ-15A214-A fog lamp switch and C5ZZ-15223-CB circuit breaker) for installation.
- 1966-67 non GT Cars**
 All 1966 and 1967 non GT cars require (C6ZZ-15223-FUD fog lamp wiring conversion kit and C6ZZ-15A214-A fog lamp switch) for proper installation.

Fog Lamp Wiring Conversion - This is everything you need to hook up your fog lamps. Kit includes fog lamp under dash harness, circuit breaker, primary lead, fog lamp feed wire, two ground wires, two radiator support grommets, wiring diagram and installation instructions.

Fog Lamp Ground - All black wire which plugs into fog lamp pigtail and grounds to radiator support.

Fog Lamp Feed - Hot wire from fog lamp under dash harness to fog lamp housing pigtail. Connects left and right fog lamp. 1965 GT cars originally had this feed wrapped into the headlamp harness.

Fog Lamp Pigtails - Pigtail wires which connect to bulb and run through housings and plug into fog lamp feed. Not necessary if purchasing fog lamp housings as pigtails are included.

Fog Lamp Circuit Breaker - Mounts under dash, controls voltage for wire protection. Includes primary wire which connects to Headlamp Switch Plug. Instructions included.
