## Gauge Clusters - JME

JME Enterprises completely re engineered the original 65/66 Mustang gauge instrument bezel. The 1965-66 bezel is machined out of T6061 billet aluminum on a CNC milling machine. It has been modeled and produced to exacting factory specifications. Due to internal sourcing of the Auto Meter gauges, the electric water and oil senders may need to be purchased to complete your installation. This results in a significant savings to our customers... The wiring harness includes a one plug release after installation. All wires on the harness are labeled and color coded to match the stock wires under your dash. The different face options include brushed aluminum, camera case, wood and carbon fiber.

## Radio Bezels Custom JME

Looking for some in-dash flash? Do you want "real" high-end car audio in your 69 or 70 Mustang? How about an in-dash CD, CD/Cassette, CD/DVD or MiniDisc Receiver? If you're an Internet music fan, you can play MP3 files recorded on CD-Rs. Are you tired of having to stop your car and run to your trunk every time you want to change a CD? With a CD/MP3 receiver, you have the ability to store up to 200 song files (approximately 10 hours of music) per disc, it's like having a CD changer in your dash. If the answer to these questions is yes, then you will want one of these! A radio bezel that will hold a full-sized, in-dash DIN chassis radio or CD player. This new bezel is CNC machined from billet aluminum and bolts into the stock location of the standard radio. Each bezel is machined from a solid block of T6061 billet aluminum alloy. Finished with polished edges and your choice of finish, camera case, brushed aluminum, woodgrain or carbon fiber.

*Mustang Depot* will process all orders received the day after the order is received. We do not guarantee stock. If the item is currently available, the product will ship the day following the order date, with respect to the type of delivery service requested by the customer. (For example: If you order something on Monday selecting the Next Day Air Option, if the product is available, your order will be processed and shipped on Tuesday and you should receive it by Wednesday) This does not include weekends and holidays. We are not liable for shipping charges, for items that are not currently in stock. We will ship the item the manner in which it was ordered (i.e. Next Day, 2nd Day) whenever the product is or becomes available... There are no refunds given for shipping charges! We will do our best to fill orders that we don't have currently in stock. We have a network of affiliates, which allows us the ability to pursue the product from other sources. However, it is not too uncommon for nationwide backorders to be in effect due to manufacturer hold-ups on certain items. The term used herein as "**Free Shipping**" only applies to "Ship To" addresses within the continental USA only. When a product is deemed "**Free Shipping**," other shipping options including 3 Day, 2nd or Next Day Air, will have to be paid separately. On large items deemed "**Truck Freight Collect**" the bill for freight will be due upon arrival of the parts. Shipping charges are, in all cases, the complete responsibility of the customer and *Mustang Depot* will not be liable in any case for shipping charges incurred by the customer. This includes both from the origin to the customer and from the customer to the origin. We do not currently accept international orders...

## Other Policies

**Special Order Items** - Some items listed in this catalog are made to order by the manufacturer. These **Special Order** items require pre-payment by debit card, credit card, or wire transfer and are not returnable. **Back Orders** - Items temporarily out of stock will be placed on back-order unless you indicate that a refund should be made. - If you install the item(s), it will be deemed un-returnable.

### Goods Not Accepted for a Return

- If you purchase a product and find it doesn't fit due to any modification to the car from stock (ie. Engine Swap, Transmission Swap)
- No return on electrical parts, books, special order items, or items we disclaim in advance...

**Obtaining a Return Goods Authorization Number** When you plan to return items via UPS to Mustang Depot, **it's necessary to obtain a Return Goods Authorization (RGA) number.** RGA numbers help us process returns quickly and efficiently. Please Call (702) 262-0011 or email [customerservice@mustangdepot.com](mailto:customerservice@mustangdepot.com) for your RGA number request. Please include the reason for the return, date the order was placed, your order number, name, phone number, and shipping address.

**Returning Items to MustangDepot.com** Simply take your package to any location that has regularly scheduled UPS pick-ups. You may want to check with your place of employment to see if they have regular UPS pick-ups. Or, you can call 1-800-PICK-UPS (1-800-742-5877) or visit the UPS Web site at [www.ups.com/using/services/locate/locate.html](http://www.ups.com/using/services/locate/locate.html). As long as your return address label is attached and the RGA number is included, it will insure the prompt and efficient handling of your return. **Please note: you must insure the item with the carrier for the total amount of the sale!**

**Credit and Return Shipping Costs** Within 15 business days of receipt of your returned item, you will be issued credit for the original purchase price, plus applicable sales taxes, and less applicable re-stocking charges. Core credits will also be processed within 15 business days.

If the reason for your return was caused by Mustang Depot, or one of our business partners (i.e., damaged or defective items, wrong part shipped), we will cover the freight charges on the replacement items. All other returns (i.e., didn't want, doesn't like) will be limited to the invoiced price less a 20% restocking fee, and less the shipping charges. In-store credits can be issued for the full purchase price of the goods, less shipping charges.
